FOOD SAFETY POLICY

N. TITAKIS S.A., engaged in the production, bottling and marketing of wines, is committed to producing and supplying safe products that comply with all applicable legal, regulatory and customer requirements.
The Management of the company recognizes that food safety is a fundamental factor for consumer protection, maintaining customer confidence and ensuring the sustainable growth of the business. For this reason, the company implements and maintains a Food Safety Management System in accordance with the requirements of ISO 22000:2018.

Within this framework, the company is committed to:

• Identifying, assessing and controlling all hazards related to food safety at every stage of the production process.
• Implementing and maintaining effective Prerequisite Programs (PRPs), HACCP procedures and all necessary control measures to ensure the production of safe products.
• Ensuring full traceability of products and the effective management of non-conformities, customer complaints and potential product recalls.
• Complying with all applicable legal requirements, regulatory obligations and customer specifications.
• Maintaining effective communication with suppliers, business partners, customers, competent authorities and other interested parties on matters related to food safety.
• Promoting and strengthening the food safety culture through continuous training, awareness and active involvement of all personnel.
• Providing the necessary human, technical,financial and personel educational resources for the effective operation of the Food Safety Management System.
• Establishing, monitoring and reviewing food safety objectives in order to achieve continual improvement of the company's performance.
• Periodically reviewing the Food Safety Management System to ensure its continuing suitability, adequacy and effectiveness.

This Food Safety Policy is communicated to all company personnel, is available to all relevant interested parties and provides the framework for establishing and reviewing the objectives of the Food Safety Management System.

All personnel are responsible for implementing the procedures related to food safety within their area of responsibility and are required to actively contribute to the achievement of the system's objectives.

The Management of N. TITAKIS S.A. is committed to fully supporting, implementing and continually improving the Food Safety Management System in accordance with the requirements of ISO 22000:2018.
